Here is the rubber industry, still in its infancy, unable to supply the demand for passenger cars alone, to say nothing of government orders for ambulances and truck tires.

A rubber factory in Indianapolis has still greater possibilities than the companies operating in small towns and cities in Ohio.

This factory will be completed as quickly as possible. This company will start to accumulate profits as soon as it commences operation.

The opportunity is now available for you to get possession of some interesting inside information, also full details of our plan.

### KEEP YOUR LIBERTY BONDS

It is the policy of our company to in no way discredit the value of Liberty Bonds. In no case will we accept Liberty Bonds in exchange for our securities. Your patriotic duty is to buy and keep Liberty Bonds whenever issued. The product of our company will help fill the want which today exists for cord tires for use on ambulances, passenger cars, motor buses and other motor-driven vehicles which are essential to winning the war. In all lines of industry traffic must be kept moving. Even with this demand existing, we will not permit our business ambitions to conflict in any way with our duty—America First, and to win the war.
